**The coated board complies with the EU framework regulation 1935/2004/EC on materials and articles intended for contact with food.**

- \* Using raw materials approved and suitable for food packaging proven by documentation, to comply with relevant food contact legislation.
- \* Verifying that overall and specific migration components from the packaging are within an acceptable limit.
- \* Verifying that the sensory properties of the packaging does not influence the food product.
- \* The suitability of the lids for specific applications should be ascertained by the relevant user/customer/packer.

**Produced in conformity with CE 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.**

- \* This is assured by the implemented quality assurance systems, the quality control systems and the appropriate documentation control.

**Traceability**

- \* Each box is provided with a label indicating info for traceability.

**Proper conditions of transport and storage**

- \* Long-term storage at 12-24 °C and short-term transport at 10-35 °C, in an atmosphere as dry as possible.
- \* Avoid moisture (wetness, condensation,..) and store in closed room as dry as possible.

**ATTENTION : REMOVE LID FROM CONTAINER BEFORE HEATING CONTAINER IN OVEN, MICROWAVE, ...**
