The coated board complies with the EU framework regulation 1935/2004/EC on materials and articles intended for contact with food.

- * Using raw materials approved and suitable for food packaging proven by documentation, to comply with relevant food contact legislation.
- * Verifying that overall and specific migration components from the packaging are within an acceptable limit.
- * Verifying that the sensory properties of the packaging does not influence the food product.
- * The suitability of the lids for specific applications should be ascertained by the relevant user/customer/packer.

Produced in conformity with CE 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.

- * This is assured by the implemented quality assurance systems, the quality control systems and the appropriate documentation control.

Traceability

- * Each box is provided with a label indicating info for traceability.

Proper conditions of transport and storage

- * Long-term storage at 12-24 °C and short-term transport at 10-35 °C, in an atmosphere as dry as possible.
- * Avoid moisture (wetness, condensation,..) and store in closed room as dry as possible.

ATTENTION : REMOVE LID FROM CONTAINER BEFORE HEATING CONTAINER IN OVEN, MICROWAVE, ...
